Summary

Detail-oriented IT fresher with a strong foundation in computer fundamentals and web technologies including HTML, CSS, JavaScript, and basic Backend concepts such as Node.js. Hands-on experience through academic and personal projects, with good problem-solving skills and the ability to learn new technologies quickly. Seeking an entry-level IT role to apply technical knowledge and contribute to organizational growth.

Education

MDS University, Ajmer

Bachelor of Computer Application

2024 - 2027

Projects

Task Management System

3 Months

Developed a full-stack task management application to help users create, organize, and track tasks efficiently. The system provides a user-friendly interface with secure authentication and real-time task updates, enabling better productivity and workflow management.

Technologies Used:

React.js, Node.js, Express.js / NestJS, MongoDB, REST APIs, JWT Authentication

Payment Gateway Integration System

3 Months

Designed and implemented a secure payment integration system to enable seamless online transactions within the application. The system supports real-time payment processing with proper validation, error handling, and transaction status management to ensure a smooth and reliable user experience.

Technologies Used:

Node.js, Express.js / NestJS, MongoDB, Payment Gateway (Stripe / Razorpay), REST APIs, JWT Authentication

Skills

Frontend :-

HTML5, CSS, Javascript, React.js, Tailwind, Next.js, Redux

Backend :-

Node.js, Express.js, PHP, python, Nest.js

Database :-

MySQL, MongoDB

DevOps & Tools

Git & Github, SVN, Jenkins (CI / CD), Docker, Ngnix, Postman, Linux, NPM, AWS, Azure, Render, Vercel

Soft Skills

Agile, Jira, Problem Solving, Adaptability, Team Collaboration

Languages

Hindi Native / Full proficiency

English Proficiency : Basic
